STATE CLEARINGHOUSE

---

# NEWSLETTER

**December 1 through 15, 2001**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **December 1 through 15, 2001.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

**Curtail or turn off all holiday and special light schemes, displays and permanent decorative lighting.**

# CEQA & Planning Case Law

## **Summary of Recent CEQA & Planning Case Law**

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No cases have been selected for the period of December 1-15, 2001.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

# Federal Notices

## Intergovernmental Review Notices (December 1<sup>st</sup> – 15<sup>th</sup>, 2001)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

# CEQA Documents

## Key for abbreviations of Document Type :

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, December 03, 2001</u></b>			
2001122010	GPA App 2001-11 & REZ 2001-20 - John and Janet Freitas Stanislaus County Turlock--Stanislaus Request to amend the General Plan from Urban Transition to Planned Development and rezone from A-2-10 (General Agriculture) to Planned Development for a mini storage with RV parking on 4.7+/- acres.	CON	12/14/2001
2001024004	Entrance Signs and Pullouts U.S. National Park Service --Inyo Construct 7 large entrance signs and paved pullouts.	EA	12/31/2001
2000071117	G.M. Bauer Water Treatment Facility Environmental Impact Report Trabuco Canyon Water District Trabuco Canyon--Orange The project includes the construction of a new water treatment facility to meet the California Department of Health Services requirements for additional water filtration at the District's Rose Canyon Wellfield. The method of additional treatment would be contact clarification-filtration. Contact clarification-filtration units would be housed in an approximate 3,200 sf structure located on the District's three-acre graded parcel containing the existing Rose and Lang Wells (Rose Canyon Wellfield). Other associated equipment and basins would be located adjacent to the new structure, and would be situated partially below grade or within solid concrete block structures to minimize visual effects and potential noise impacts. Filter backwash would be conveyed via a new six-inch sewer force main to be installed within an existing easement to a sewer connection in Robinson Ranch.	EIR	01/18/2002
2001061089	Southeast Area Learning Center Los Angeles Unified School District Huntington Park, Maywood--Los Angeles Construction and operation of a new 132,000 square foot high school/middle school facility to accommodate 1,071 two-semester seats and up to 1,499 students on a Concept 6 schedule. The project design includes a total of 45 classrooms, with administrative offices, a library, food service uses, an auditorium, health offices, a small gymnasium, a handball court, a soccer field, a softball diamond, tennis courts, a pool, a 2-level parking structure, and a sports deck with basketball and volleyball courts.	EIR	01/16/2002
2001071092	Palmdale Recreation Facilities Project Palmdale, City of Palmdale--Los Angeles Construction of two recreation facilities, one on the eastside and the other on the westside of the city. Eastside facility would include 3 ball fields, recreation center, and aquatics park. Westside facility would include 12 ball fields, recreation center, and outdoor amphitheater.	EIR	01/18/2002

New building will be metal with parapet walls and metal awnings. The existing building will have awnings to match.	<b>JD</b>	12/21/2001
2000091012	Shaver Lake Forest Golf Development and Amendment to the Shaver Lake Forest Specific Plan (STRAHM) Fresno County --Fresno The project proposes the following amendments/entitlements: 1. Amend the Shaver Lake Forest Specific Plan and Rezone.	<b>NOP</b>	01/05/2002
2001121016	Harvard-Westlake Middle School Campus Improvement Project Los Angeles City Planning Department Los Angeles, City of-- Conditional Use to permit the demolition of six buildings and the construction of two new classroom buildings, and the expansion of two existing buildings for a net floor area increase of approximately 122,220 square feet. The expansion would provide for 13 additional classrooms, a 950-seat theater, and a two-story parking structure that would provide a total of 207 spaces on the property. The project may result in an increase in enrollment from 766 students to 790 students, and 15 additional employees for a total of 180. The athletic field would be reconfigured and increased by approximately 45,000 sf to provide for four practice areas. No high-capacity seatings or night lighting is proposed. Internal vehicle circulation will be improved to eliminate vehicle queuing on North Faring Road. Class hours are 8:00 a.m. to 8:00 p.m. to accommodate faculty preparation time and extracurricular activities. In addition, the school occasionally hosts admission and other school-related events on Saturdays.	<b>NOP</b>	01/28/2002

<b><u>Documents Received on Monday, December 03, 2001</u></b>			
2001122003	Draft Environmental Impact Report for Revisions to the City of Fremont's Solid Waste Management System-PLN2002-00150 Fremont, City of Fremont--Alameda The City of Fremont is proposing to make changes in its solid waste management system. At the present time, all of the City's municipal solid waste is collected and hauled directly to the Tri Cities Recycling and Disposal Facility (TCRDF) on Auto Mall Parkway in Fremont. For the purposes of the EIR, "municipal solid waste" is defined to include both wet and dry solid waste generated within the City of Fremont that is not currently either separated by the generator for recycling, or source separated and processed as Alternate Daily Cover (ADC) at a permitted sanitary landfill. According to the operator of the TCRDF, the permitted capacity for that landfill will be reached sometime in 2003, and the facility will no longer accept additional waste. Accordingly, the City proposes to adopt a new long-term system for disposing of its municipal solid waste that will include: (1) having all of the City's municipal solid waste hauled to a transfer station/materials recovery facility (TS/MRF) to be located at 41099 Boyce Road in Fremont; and (2) having the waste transferred from collection vehicles to long distance transfer trucks and hauled to an existing permitted sanitary landfill, the Forward Sanitary Landfill, located at 9999 Austin Road in San Joaquin County. The waste hauled to the Forward Landfill will not cause the landfill to exceed its currently permitted gate capacity.	<b>NOP</b>	01/02/2002
2001122004	Sand Creek Specific Plan Antioch, City of Antioch--Contra Costa The project consists of City adoption of the Sand Creek Specific Plan and approval of related subsequent entitlements.	<b>NOP</b>	01/02/2002

2001121006	Zaca Mesa Winery Expansion Santa Barbara County --Santa Barbara Expand existing 20,480 square foot winery to include new 6,540 square foot bottling building, 10,755 square foot winery expansion, and 6,820 square foot hospitality center (tasting room, etc) for a total facility square footage of 44,595. Project would also include increasing wine production from 60,000 cases to 100,000 cases per year. In addition, the winery would host 12 special events per year with up to 200 guests per event.	<b>Neg</b>	01/02/2002
2001121007	Greenwald/Meadowbrook Realignment Riverside County Transportation Commission Perris, Lake Elsinore--Riverside The proposed project would realign Greenwald Avenue at the Meadowbrook-Greenwald Avenue intersection with State Route 74 (SR-74). The intersection is located in southern Riverside County, east of the City of Lake Elsinore, west of the City of Perris, and south of River Road along SR-74. Greenwald Avenue currently intersects SR-74 at an angle of approximately 45 degrees. The purpose of this project is to improve the safety of the Meadowbrook-Greenwald Avenue intersection with SR-74 by realigning Greenwald Avenue to intersect with SR-74 at a 90 degree angle. This will improve the sight distance at the intersection for vehicles traveling east on both SR-74 and Greenwald Avenue.	<b>Neg</b>	01/02/2002

1992052017	General Plan Master EIR Update Modesto, City of Modesto--Stanislaus This is a rezoning to allow an eighteen unit affordable housing apartment complex.	<b>NOD</b>	
1994113039	Metropolitan Oakland International Airport (MOIA), Airport Development Program (ADP) Oakland, Port of Oakland--Alameda Hertz Rent-A-Car Systems, Inc. has requested a building permit to construct a new rental car quick-turn-around facility at Wright Street and Earheart Road. The facility will cover approximately 3.4 acres and will consist of a 2,300 square foot administrative office, a 3,100 square foot car washing building, six (6) fuel dispensing islands with a canopy, installing a 12,000 gallon above ground fuel tank, grading and paving of a car storage lot for approximately 500 rental cars, and installing security lighting and fencing. The ADP consists of the following project components: terminal expansion (addition of 12 gates and other terminal support facilities), landside access projects (including new or expanded road improvements from I-880 and across Oakland Airport to connect with Harbor Bay Parkway), airline and airfield support (including airline maintenance facility expansion), air cargo relocation and facility development and airfield improvements. In 1997 and 1999, the Board of Port Commissioners certified an environmental impact report and supplement to the environmental impact report (collectively, the EIR) for the Airport Development Program. The interim rental car facility is required to be relocated to construct the garage. These projects are now necessitated by increased needs for airport security to comply with FAA-mandated restrictions that prohibit parking within 300 feet of terminal buildings.	<b>NOD</b>	
1994113039	Metropolitan Oakland International Airport (MOIA), Airport Development Program (ADP) Oakland, Port of Oakland--Alameda The Plans and Project Manual have been prepared for the project to realign Langley Street and to widen Doolittle Drive. The proposed intersection improvements include installation of a 3-way traffic signal, creation of left turn lanes, and realignment, widening, and repaving of the roadways to accommodate the intersection. All improvements will occur within the existing street right of way with the following exceptions that will improve traffic circulation for Martin Luther King Jr. Regional Shoreline Park (the Park). On the Park's side of Doolittle Drive,	<b>NOD</b>

	the project will: 1) provide in-kind replacement for curbs, a sign, and irrigation equipment; 2) provide shoulder contouring to conform with the existing paving and shoulder elevations; and 3) trim existing shrubs that hang over the CalTrans right of way. These improvements occur within the Park's lease area. The Park District concurs with the proposed improvements. The Port has been working on the project with the CalTrans Permit Department since the summer of 2000. The Port continues to work with CalTrans for approval of the project plans and project manual to acquire an encroachment permit.		
1994113039	Metropolitan Oakland International Airport (MOIA), Airport Development Program (ADP) Oakland, Port of Oakland--Alameda The work will include constructing an interim 15,000 square-foot, single story customer service building, paved parking, lighting, fencing, landscaping, and five (5) vehicle quick-turn-around facilities, each consisting of a fueling dispensing island, covered by a canopy, a 12,000 gallon above-ground fuel tank, and enclosed car wash. The temporary relocation of customer pick-up and drop-off as well as rental car company service facilities was contemplated as a component of the Airport Development Program (ADP). The ADP consists of the following project components: terminal expansion (addition of 12 gates and other terminal support facilities), landside access projects (including new or expanded road improvements from I-880 and across Oakland Airport to connect with Harbor Bay Parkway), airline and airfield support (including airline maintenance facility expansion), air cargo relocation and facility development and airfield improvements. In 1997 and 1999, the Board of Port Commissioners certified an environmental impact report and supplement to the environmental impact report (collectively, the EIR) for the Airport Development Program. The interim rental car facility is required to be relocated to construct the garage. These projects are now necessitated by increased needs for airport security to comply with FAA-mandated restrictions that prohibit parking within 300 feet of terminal buildings.	<b>NOD</b>	
1997062110	General Plan Amendment 97-2, Zone Amendment Shasta County --Shasta Issuance of a Timberland Conversion Certificate exempting 40 acres from Forest Practice Act restocking (tree planting) requirements facilitating construction of a service station, mini-mart, restaurant, RV park and campground.	<b>NOD</b>	
1998111014	Orco Land Co. Tentative Map San Diego County --San Diego The project is the rezone of a portion of TM5114RPL2 to allow a decreased backyard setback width of 25 feet.	<b>NOD</b>	
1998122065	Franklin Boulevard Bridge/Thornton Road Bridge Replacement Project Sacramento County --Sacramento, San Joaquin The Franklin Boulevard/Thornton Road Bridge at the Mokelumne River is actually two separate structures: a timber trestle structure across the overflow flood plain north of the Mokelumne River and a steel truss swing bridge over the Mokelumne	<b>NOD</b>

2001128054	<p>Replace Roof Building 195-Napa State Hospital Mental Health, Department of Napa--Napa</p> <p>The proposed project consists of replacement of a portion of the roof of Building 195 at Napa State Hospital. The project is needed because the roof is leaking and causing extensive interior damage to the building. The project would replace the roof with new concrete tiles, insulation, underlayment, copper valleys, and gutters. The project does not involve expansion of existing use. Building 195 was originally constructed in 1949. Due to the age of Building 195, an historic eligibility survey was conducted by a qualified architectural historian. The Survey found that Building 195 is not eligible for listing in the National Register of Historic Places or the California Register of Historical Resources. Pursuant to Section 5024.5 of the Public Resources Code the State Historic Preservation Officer (SHPO) was consulted. Based on the site visit and consultation, the SHPO has provided the Lead Agency with written concurrence that the project would not represent a significant effect on historical resources.</p>	<b>NOE</b>	
2001128055	<p>Replace Water System Parks and Recreation, Department of --Santa Cruz</p> <p>Replace existing water system for park office and residence, comfort stations #1 and #2, parking lot, and picnic area at Natural Bridges State Beach to provide a safe, adequate water supply for public use, sanitary facilities, park upkeep, and fire protection. Upgrade fixtures and expand irrigation system to adequately maintain park facilities.</p>	<b>NOE</b>

	side of the pier will be 185 feet in length, and the western side will be 100 feet in length. The 4 permanent boat berths will be located on the north side of the Aldo's Restaurant dock.		
2001122014	Silver Bend Apartments (EIAQ-3591) Placer County Planning Department Auburn--Placer 72-unit low-income apartment complex with on-site resident manager, clubhouse, pool and outdoor recreational facilities.	<b>Neg</b>	01/02/2002
2001122015	Waddell Estuary Enhancement and Management Parks and Recreation, Department of --Santa Cruz Install interpretive signage. Improve red-legged frog habitat by removal of tule mat, creation of seasonally wet ponds, and review water diversions. Introduce floating boards to provide western pond turtle basking sites. Eradicate english and cape ivy, pampas grass, poison hemlock, monterey cypress, phalaris aquatica, and other exotic vegetation. Trap and destroy feral pigs within the wetland. Continue studies and surveys of sensitive species (San Francisco Garter snake, black rail, western pond turtle, and red-legged frog). Manage the sandbar to provide high summer water levels for quality rearing habitat for aquatic species and breach the sandbar in the winter to allow coho salmon access for spawning and spawn emigrating to the ocean.	<b>Neg</b>	01/02/2002
1995111024	State Route 101 Bridge Replacement and Improvement Project Caltrans, Planning Oxnard--Los Angeles The CDFG has issued an Agreement Regarding Proposed Stream Alteration (SAA #R5-2001-0234) ("agreement") to Caltrans ("applicant") in conjunction with the applicant's proposal to alter the streambed to construct the Santa Clara River Bridge Replacement Project at Highway 101. The applicant proposes to replace and widen the current bridges with a concrete girder bridge with 12 lanes, standard shoulders and medians, a bike path on the northbound side, 14 piers and two abutments. Dimensions of the new structure are 1,660 feet by 209 feet, a widening of approximately 64 feet. Construction will begin April, 2002 and end April 1, 2005. Temporary culverts will be constructed to maintain the low flow and not impede fish passage during construction. The project will permanently impact 10 acres (8.65 of which is due to shading) and temporarily impact 4.5 acres (3.6 of which is unvegetated) of stream within the Departments's jurisdiction. The applicant's mitigation measures include: creation of 10 acres of willow riparian scrub/cottonwood willow forest/emergent wetlands offsite within a 500-acre acquisition area in the Santa Clara River near the City of Fillmore; enhancement of 20 acres of degraded riparian habitat within this acquisition site; removal of exotic plant species within the entire 30 acre mitigation site; restoration and enhancement of approximately six acres on-site with native species local to the drainage; removal of all exotic plant species within this six-acre restoration area.	<b>NOD</b>

2001128053	Office Lease California Integrated Waste Management Board Long Beach--Los Angeles The acquisition of the space to accommodate California Integrated Waste Management Board staff in the Long Beach, California area. The staff will be relocated from the Los Angeles office and the Fullerton office for cost and logistical reasons.	<b>NOE</b>	
2001128100	Relocatable Classrooms Addition (3 Classrooms) San Marcos Unified School District San Marcos--San Diego To relieve current student overcrowding, it is necessary to provide additional classroom teaching stations.	<b>NOE</b>	
2001128108	HHWVAR981016R-Three-Year Variance Renewal to the City of Paramount to Conduct Door-to-Door Household Hazardous Waste (HHW) Collections Department of Toxic Substances Control Paramount--Los Angeles Variance to the City of Paramount from hazardous waste facility permit requirements. The three-year variance authorizes Paramount to conduct door-to-door (residential) collections of HHW. The collections provide appropriate means for the elderly and handicapped, and others unable to participate in the regular HHW collection program of disposing of hazardous waste. The variance is based on the evidence that: 1. The door-to-door collections will meet strict standards and wastes are delivered to an authorized HHW collection facility; 2. Only personnel trained in hazardous waste management shall handle or package hazardous waste; and, 3. All collected wastes will be transported by a registered hazardous waste hauler to a HHW collection facility for further management.	<b>NOE</b>	
2001128111	Streambed Alteration Agreement (5-2001-0376) Regarding the Excavation of Sediment Within the West Sycamore Channel Fish & Game #5 Whittier--Los Angeles The Operator proposes to alter the streambed and banks by removing sediment within the West Sycamore Channel from San Gabriel River Parkway culvert crossing (including the actual culvert) downstream for approximately 250 linear feet. The proposed v-ditch excavation shall be approximately 10 feet wide at the top of slope and approximately 5 feet deep with 1:1 side slopes. The proposed sediment removal would expand channel capacity to an estimated 685 cubic feet per second (cfs). The existing capacity of the channel based on October 2001 vegetation removal and installation of sandbags along the top of slope is an estimated 560 cfs. Estimated 1-2 year storm event is 560 cfs. Native vegetation shall be avoided. Prior Agreement No. 5-2001-0293 allowed for the removal of non-native vegetation. The proposed minor sediment excavation within the open channel (SAA No. 5-2001-0376) and prior non-native vegetation removal (SAA No. 5-2001-0293) is to partially restore designed flood capacity for the channel.	<b>NOE</b>

2001081102	<p>Ascot Avenue Elementary School and Fletcher Drive Elementary School Addition Projects</p> <p>Los Angeles Unified School District</p> <p>--Los Angeles</p> <p>The purpose of the Ascot Avenue Elementary School addition project is to reduce reliance upon portable classrooms and maximize on-site playground area. The two-story building is expected to include approximately 22,600 square feet of new construction, including: 16 classrooms, two boys' restrooms, two girls' restrooms, two faculty restrooms, parking beneath the footprint of the building with 25 parking spaces, and other appurtenant facilities. The project would result in the removal of 6 portable buildings and the relocation of special education classrooms off of the existing play area.</p>	<b>NOD</b>	
2001091155	<p>Tentative Tract Map 29964</p> <p>Calimesa, City of</p> <p>Calimesa--Riverside</p> <p>CDFG is executing a Lake and Streambed Alteration Agreement (SAA #6-2001-69) pursuant to Section 1603 of the Fish and Game Code to the project applicant, The McCarty Company. The applicant proposes to develop 44 single residential sites on an approximate 55 acre parcel; development will represent a radical change in the character of the land use area, but one fully consistent with the developing pattern of the area. The project will not cause a significant interruption to natural drainages; the water will start and stop at the same points of entry and exit; grading will intrude only on a small part of sheet flow area. A natural retention basin is proposed to slow down current velocity, as described in the submitted application. The project is located in Calimesa in Riverside County.</p>	<b>NOD</b>	
2001102086	<p>Mowry Avenue Corridor Phase III Sewer Replacement</p> <p>Union Sanitary District</p> <p>Union City, Fremont--Alameda</p> <p>Replacement of approximately 7,700 feet of capacity and structurally deficient sewers.</p>	<b>NOD</b>	
2001128101	<p>Palomares Road Widening</p> <p>Fish &amp; Game #3</p> <p>--Alameda</p> <p>The overall project involves construction of a new 6,000 square foot single family residence on the 160 acre property. The County of Alameda requires the owner to widen and pave the existing earth driveway, provide drainage in accordance with current standards, and mitigate soil conditions. The crossing was created with a 48 inch culvert and placement of fill within the creek. Recompacked fill will be placed to the same lines and grades as the existing fill and the 48 inch corrugated metal culvert will be placed with an HDPE culvert of the same diameter. A concrete head wall will be constructed at the upstream end of the culvert. Loose placed rock rip rap will be provided at the culvert outfall to dissipate energy. The owner propose to sheetpile the excavation at the limits of the existing fill to minimize impacts to existing vegetation. Two swales drain across the existing driveway and outfall to the pond. The project will replace the two culvert crossings. Issuance of a Streambed Alteration Agreement Number R3-2001-0777 pursuant to Fish and Game Code Section 1603.</p>	<b>NOE</b>

<b><u>Documents Received on Friday, December 07, 2001</u></b>			
2001121022	Serra Plaza - San Juan Capistrano San Juan Capistrano, City of San Juan Capistrano--Orange The project consists of a request for approval of architectural plans for development of 58,000 square feet of office space in two new two-story office buildings on 5.2 acres at the southeast corner of Del Obispo Street and Paseo Adelanto. Development of the site as proposed will complete the development of the "Bank of America" project. The applicant is requesting the approval of an Architectural Control application (AC 00-08).	<b>NOP</b>	01/07/2002
2001121025	Hanford Joint Educational Center Project Hanford Joint Union High School District Hanford--Kings The Hanford Joint Union High School District, in conjunction with the City of Hanford and the College of the Sequoias, is proposing to undertake the Hanford Joint Educational Center Project. The project encompasses developing and operating on a 179.67-acre site a new high school, a City of Hanford sports park, and a College of the Sequoias off-campus center. The three uses would be designed to allow joint use of facilities and cooperative educational and recreational programs.	<b>NOP</b>	01/07/2002
2000121035	Change of Zone PZ 99-099 Tulare County Resource Management Agency Visalia--Tulare The applicant is requesting a change of zone from C-2-SC (General Commercial-Scenic Corridor Overlay) to C-3 (Service Commercial) to allow the outdoor sales and storage of firewood on 1 acre. For General Plan Consistency, staff is recommending the SC (Scenic Corridor Overlay) and the SR (Site Review Combining).	<b>Neg</b>	01/07/2002
2001121021	New Elementary School - Verdugo Lane Rosedale Union School District Bakersfield--Kern Construction of a new K-6 elementary school on a 10 acre site to include: Administration, Library, Multi-purpose, Kitchen facilities and 20 classrooms. Landscaping, turf and irrigation along with outside AC courts for volleyball and basketball. Provision for on site parking for staff and visitors, bus loading and unloading is planned along with hook-ups for future portable classrooms.	<b>Neg</b>	01/07/2002
2001121023	Brand Park Debris Basin Glendale, City of Glendale--Los Angeles The Public Works Division, Engineering Section is proposing to construct operation and maintenance improvements to the existing debris basin system located at the end of the cul-de-sac behind the Brand Library in Brand Park.	<b>Neg</b>	01/10/2002

<b><u>Documents Received on Friday, December 07, 2001</u></b>			
2001102124	<p>West Campus Water Tower Replacement Project University of California, Davis Davis--Yolo</p> <p>UC Davis proposes to remove existing Domestic Water Tower Number 2 located west of Highway 113 and to construct a new ground-level water tank to replace and expand the current domestic water supply and fire flow capacity of the water tower. The existing 100,000 gallon water tower is approximately 150 feet tall with an exterior lead-based paint coating system that is badly corroding. Replacing the water tower with a new 300,000-gallon ground tank would be more cost-effective than recoating the existing water tower.</p>	<b>NOD</b>	
2001111024	<p>Redlands Early Education Center San Bernardino County, Superintendent of Schools Redlands--San Bernardino</p> <p>The San Bernardino County Superintendent of Schools (SBCSS) proposes to undertake the acquisition of approximately 4.2 acres of predominantly undeveloped property located on the northeast corner of the intersection of Park Avenue and Nevada Street, at 26900 and 26988 West Park Avenue, for the purpose of constructing the proposed Redlands Early Education Center, a special education preschool ("Project"). The project is proposed to be seven (7) classrooms, totaling approximately 16,000 square feet. The project contemplates construction of classroom facilities organized in single-story buildings with covered walkways and fencing. Facilities to be constructed include classrooms for up to 90 preschool students ages three months through pre-kindergarten; multi-purpose room; parking facilities for visitors and staff; parent loading/drop-off area; bus loading/ drop-off area and hardscape/turf playfields. Lighting includes low level security lighting, signage lighting, and illumination of the surface parking lot and associated pedestrian areas.</p>	<b>NOD</b>	
2001111034	<p>Mulberry Early Education Center San Bernardino County, Superintendent of Schools Redlands--San Bernardino</p> <p>The San Bernardino County Superintendent of Schools (SBCSS) proposes to undertake the acquisition of approximately 6.27 acres of predominantly undeveloped property located on the northeast corner of the intersection of Archibald Avenue and Arrow Route, for the purpose of constructing the proposed Mulberry Early Education Center, a special education preschool ("Project"). The existing structure on the site will be demolished prior to the construction of the Project. The Project is proposed to be twelve (12) classrooms, totaling approximately 21,000 square feet and may include a medical therapy unit of approximately 3,000 square feet. The project contemplates construction of classroom facilities organized in single-story buildings with covered walkways and fencing. Facilities to be constructed include classrooms for up to 156 preschool students ages three months through pre-kindergarten; multi-purpose room; parking facilities for visitors and staff; parent loading/drop-off area; bus loading/ drop-off area and hardscape/turf playfields. Lighting includes low level security lighting, signage lighting, and illumination of the surface parking lot and associated pedestrian areas necessary for safety.</p>	<b>NOD</b>

<b><u>Documents Received on Monday, December 10, 2001</u></b>			
2001061010	Cold Canyon Landfill Green Waste Compost Facility Expansion San Luis Obispo County San Luis Obispo--San Luis Obispo Issue a Solid Waste Permit for the expansion of an existing compost facility for curbside green waste program from 5 acres to 12 acres.	<b>Neg</b>	01/09/2002
2001062117	Driscoll Road Widening Fremont, City of Fremont--Alameda The proposed project will widen approximately 360 feet of the southbound portion of Driscoll Road between Beatrice Street and Timber Creek Terrace from one lane to two through lanes with a bicycle lane. Curb, gutter and sidewalks will be installed adjacent to the pavement area. The project will also remove an existing raised median island and establish a two-way left turn lane the full length of the project. Right of way from five properties will be acquired for the project. One of the properties from which right of way is to be acquired (3101 Driscoll Road) contains the Homer/Bond House that has been listed on the City of Fremont Primary Historic Resources list. The proposed roadway has been narrowed to preserve two major trees in front of the Homer/Bond House. A sidewalk to be constructed will pass behind the trees at the Homer/Bond House. A low combination retaining wall and sound wall along portions of the residential frontages is also proposed.	<b>Neg</b>	01/08/2002
2001121029	Safe Routes to School Project Gonzales, City of Gonzales--Monterey The proposed project includes extending Elko Street from its current northern terminus at Fourth Street, through Gonzales Union School District property, and intersecting with Fifth Street. The extension would be aligned roughly on a continuation of the existing street. This alignment would place two unused buildings on school property within the construction area. The smaller, or easterly, of the two buildings would be relocated. The larger, westerly one will be demolished. A diagonal parking area would be developed along the west-side of the street extension. The area between the parking area and the bank of Gonzales Slough would be landscaped.	<b>Neg</b>	01/10/2002
2001121030	Southside Road Bridge Crossing San Benito County --San Benito The proposed project is to construct a new bridge crossing for Southside Road, over Tres Pinos Creek, and to replace an existing deficient bridge, using funds provided by the Federal Highway Administration (FHWA).	<b>Neg</b>	01/11/2002

2001121033	Sea Saba Winery Monterey County Soledad--Monterey Use Permit for a 5,600 sf winery building, 2,400 sf office wine tasting building, and related site work. The property is located at the intersection of River Road, Foothill Road and Fort Romie Road in the Soledad area.	<b>Neg</b>	01/08/2002
2001121034	Anaheim Higher Education Center Project North Orange County Community College District Anaheim--Orange The NOCCCD is proposing to renovate and convert the existing 206,154 square foot structure formally occupied by the Martin Luther Memorial Hospital to an educational facility. The remaining five floors, each floor consisting of 12,816 square feet of total floor area, will be leased as office space or other similar uses. The proposed project will not result in the creation of any new significant structures or modifications to the exterior of the existing structure, such as additional floors or wings. The proposed project will not involve the construction of new buildings or structures. The proposed project will involve the renovation of the interior of the former hospital building to accommodate classrooms, offices, and other ancillary uses. Additionally, the project proposes to remove seven parking stalls, of the existing 737, to accommodate a play yard for the daycare center. The play yard will be located along the northerly portion of the existing building in the former emergency room parking area.	<b>Neg</b>	01/10/2002
2001121035	FCC Library and Learning Resource Center North Orange County Community College District Fullerton--Orange The North Orange Community College District is proposing to construct a new library and learning resource center within an area currently occupied by the student center (Building 800). The primary element of the proposed project includes the relocation of the existing operations with Building 800 to the newly remodeled Building 200. The remodeled Building 200 will accommodate the new student center and bookstore. The existing Building 800, consisting of 29,720 square feet, will then undergo demolition after the relocation of the existing uses is complete. Following the demolition of the existing Building 800, the site will undergo the necessary preparation for the new construction of the Library/LRC. Infrastructure connections will be installed during this development phase. The new two-level, 67,680 square foot structure will be constructed. The first floor of the library/LRC will consist of open areas and small rooms for student tutoring, labs for reading and testing, a computer lab, math tutoring area, the library's reference section, an area that will house the library's special collection, computer terminals, and various offices and storage areas. The second floor will be devoted to the main library collection. In addition, the second floor will contain group study rooms, a conference room, and a central open study area.	<b>Neg</b>	01/08/2002

	development parameters for additional 117 acre Master Plan for a destination resort development to include hotel, restaurant, tennis courts, hot tubs, conference center, day care, etc.		
2001121037	San Diego and Arizona Eastern Railway Lease San Diego Unified Port District Chula Vista--San Diego The project is a 66-year lease of approximately 480,773 square feet of land area consisting of the San Diego and Arizona Eastern Railway right-of-way located west of Interstate 5 between Lagoon Drive and Palomar Street in Chula Vista, California. The lease allows only for the surface uses of pedestrian and vehicular access, vehicular parking, landscaping and directional signage and for subsurface utility easements.	<b>Neg</b>	01/08/2002
2001122036	Thamar Wheritt/American Tower Corporation Use Permit Siskiyou County Planning Department Mount Shasta--Siskiyou The applicants request approval for a Use Permit to construct an unstaffed wireless communications site. American Tower Corporation builds wireless communications towers and leases antenna space to carriers. The proposed project includes constructing a single 150-foot high metal lattice tower that would support 12 panel antennas, and up to five equipment shelters. All the facilities would be within the 10,000 square foot (80 feet x 125 feet) fenced lease area on the site. At build-out, four sets of antennas would be mounted at intervals between 104 feet and 150 feet on the tower. A lightning rod would extend an additional eight feet above the top of the 150-foot tower. No microwave antennas would be installed at the site. The project also includes minor grading to improve the existing access road, and installing underground electrical. The project also includes inor grading to improve the existing access road, and installing underground electrical power lines within the roadbed from Timber Hills Drive up the dirt road to the site. No propane tank or generator is proposed. Only one low-wattage, manually controlled light would be allowed on each equipment shelter. The facility would not be continuously lighted.	<b>Neg</b>	01/18/2002
2001122037	Alum Rock Park Storm Damage Repair- Phase II San Jose, City of San Jose--Santa Clara Reinforcement of approximately 12 damaged banks along Penitencia Creek in Alum Rock Park (APN 599-25-001) This is Phase II of a project to repair banks damaged by high creek flows in 1998. At some sites, rock walls that have failed will be replaced by new rock walls. In most sites, failed structures will be removed and the bank will be graded back to slope of 2:1 or 1.5:1.	<b>Neg</b>	01/08/2002
2001122038	Coastside Trail Connections Half Moon Bay, City of Half Moon Bay--San Mateo An extension of the Coastside Trail from the Ocean Colony residential development to Redondo Beach Road, and a trail connection from the Poplar Beach parking lot to Railroad Avenue along Poplar Street.	<b>Neg</b>	01/08/2002

	capacity would allow for increased injection into the steamfield operated by NCPA, on the order of 16 percent over current injection capacity. The proposed project would allow NCPA to increase geothermal energy production in the southeast Geysers.		
2001121038	Malaga County Water District Water Supply Well Improvements Well No. 3, 4 and 7 Malaga County Water District --Fresno Proposes to construct: a) granular activated carbon (GAC) filtration units and appurtenances at Well No. 4, b) GAC filtration units and appurtenances at Well No. 3, and c) construction of a new water supply well (No. 7) and appurtenances. The GAC units are intended to remove DBCP from the water at Well No. 3 and 4. Well No. 7 is intended to enhance water supply for existing development in the Malaga County Water District and to supplement fire flow capacity due to the inactivation of Well No. 5 due to DBCP levels. Well No. 3 is also currently inactive due to DBCP levels greater than the current maximum containment levels (MCL's). Construction of GAC filtration units will accomplish removal of DBCP to meet the MCL requirements and allow the wells to be put back into service. Commercial and industrial facilities in the District requires the construction of Well No. 7 to maintain adequate water supply, operating pressures and fire flows in the developing eastern region of the District.	<b>Neg</b>	01/09/2002
2001121039	Park Avenue Elementary School-Operable Unit 1 Toxic Substances Control, Department of Cudahy--Los Angeles The proposed project consists of excavation of 39,000 cubic yards of soil contaminated with volatile organic compounds, petroleum hydrocarbons and metals. Excavated soil will be hauled offsite and disposed of at an appropriate facility. Confirmatory soil sampling will be performed to assure achievement of cleanup goals. Finally, the excavated areas will be backfilled with clean soil. The project is anticipated to commence in June 2002 and continue for six months.	<b>Neg</b>	01/18/2002
2001121040	Bell Street Bridge Replacement Santa Barbara County --Santa Barbara Replacement of Bell Street Bridge SIC-157 over San Antonio Creek. The project involves removal of the existing 320-foot long eight-span structure and replacement with a 96-foot single span bridge. The existing grouted rock slope protection will be removed and replaced with ungrouted rock on both creek banks. Existing pipe and tire revetment will remain.	<b>Neg</b>	01/09/2002
2001121041	La Mesa Sewer Replacement Project - State of California Revolving Fund Loan La Mesa, City of La Mesa--San Diego The City of La Mesa is applying for a State of California Revolving Fund loan application to replace sewer lines. The project would replace approximately 63,000 linear feet of concrete sanitary sewer ranging in diameter from 6-inches to 8-inches, generally located in the downtown La Mesa vicinity. The replacement pipes proposed are 8-inch plastic pipes to be installed within the same trench as the existing pipes to be removed. Approximately 51,000 linear feet of pipe is	<b>Neg</b>	01/09/2002

2001032064	Fairfield Comprehensive Amendments to General Plan & Related Documents Fairfield, City of Fairfield--Solano The proposal involves amendments of the City's General Plan and General Plan Land Use Diagram. The project also involves related amendments of documents that implement the General Plan, including the Zoning Ordinance, Zoning Map, Comprehensive Annexation Plan, Scenic Vistas and Roadways Plan, Open Space Approval Guidelines, and Open Space Acquisition and Management Plan. The project would affect properties throughout the City's planning area and Urban Limit Line. This is a recirculation of revisions to the Draft EIR previously prepared for this project. The revisions to the draft EIR relate to Section 6.3 (Agriculture), Section 6.5 (Air Quality) and to portions of Chapter 5 (Public Facilities and Services). Revisions to these sections include: (1) an additional impact related to air quality; (2) additional information relating to water supply; and (3) a revised conclusion relating to agriculture impacts. Only the revised portions are being recirculated.	<b>RIR</b>	01/25/2002
2000051118	Big Canyon Country Club Project-Pond Fill, Storm Drain and Sewer Trunk Line Newport Beach, City of Newport Beach--Orange The application is a request to permit the approval of a Grading Permit for the Big Canyon Country Club to allow the placement of fill materials within an existing pond approximately 28,000 square feet in size and construction of associated improvements. Improvements include drainage pipes underground and above surface that will connect to the existing storm drains, removal and construction of golf cart paths, adjustment of manholes to grade, and relocation of an existing water line. The pond, once filled, will be landscaped and replaced with a putting green to compliment the existing golf course uses and the driving range depth will be expanded to provide additional distance.	<b>NOD</b>

2001121050	UCSD Management School University of California, San Diego La Jolla--San Diego The proposed project would entail the construction of a 138,000 gross square foot (gsf) building that would provide modern academic facilities wherein eminent research and education in the theory and practice of management would occur to respond to the growing need for strong management skills in California industry. The proposed building site is approximately 2.1 acres in size, located north of and adjacent to the Eleanor Roosevelt College housing project (under construction), east of Scholars Drive North, and west of Ridgewalk. The building would consist of an L-shaped structure that would be three to four stories above grade and would surround a central open courtyard. Landscaping would consist of eucalyptus, Torrey Pine, sycamores trees, turf and ornamental landscaping.	<b>Neg</b>	01/11/2002
2001121051	Santa Monica New Primary Center Los Angeles Unified School District Los Angeles, City of--Los Angeles The project would involve the construction of two school facility buildings for grades K-2 totaling approximately 33,000 square feet of a 1.83-acre site. One of the buildings would be a two-story classroom building (maximum height of 34 feet) that would consist of 13 general and 3 kindergarten classrooms. The other would be a one-story administration/multi-purpose building that would house a library, administrative offices, food service facilities, and other support service uses. The administration building would front onto Tamarind Avenue. An enclosed playground would be constructed for the kindergarten classes in the northeast corner of the site. An 8-foot high block wall would surround all exposed sides of this playground. Another playground for the older students would be provided in the southeast portion of the site. The rest of the site will be enclosed with an 8-foot high chain link fence. An underground parking structure would provide spaces for 36 cars.	<b>Neg</b>	01/11/2002
2001121052	Walnut Street Infill Development San Luis Obispo, City of San Luis Obispo--San Luis Obispo A condominium subdivision of an existing .95-acre site. The project includes 10 two-bedroom units and 7 three-bedroom units for a total of 17 dwellings. The homes would have a townhouse configuration with attached two-car garages. Including the garages, the homes have three levels and a maximum height of 35 feet. Private open space is provided primarily on decks and balconies, with some units having ground level yards. Recreation space is provided in the form of a barbecue area, turf area and a 1/2 court basketball area. The project site is presently developed with five dwellings. Project plans indicate that these and all accessory structures would be demolished.	<b>Neg</b>	01/11/2002
2001121053	Expansion of Chavez Elementary School Beaumont Unified School District Beaumont--Riverside The proposed project consists of construction of a new community school on five acres to accommodate the need for additional student housing resulting from increased residential growth in neighboring areas.	<b>Neg</b>	01/14/2002

2001121054	Community School Beaumont Unified School District Beaumont--Riverside The proposed project consists of construction of a new community school on five acres to accommodate the need for additional student housing resulting from increased residential growth in neighboring areas.	<b>Neg</b>	01/14/2002
2001121055	Corona New Primary Center Los Angeles Unified School District Bell--Los Angeles Construction and operation of a new 33,000 square-foot primary center to accommodate 380 two-semester seats and up to 532 students on a Concept 6 schedule. The project design includes a total of 16 classrooms, with administration offices, a library, a multipurpose building with a faculty dining area, kitchen, covered lunch shelter, playground areas with hardscape and landscape for outdoor recreation, and underground parking for up to 42 vehicles.	<b>Neg</b>	01/11/2002
2001122048	General Plan Amendment 01-01 & Zone Change 01-02 (Stancil) Placerville, City of Placerville--El Dorado Amendment to the General Plan Land Use and Zoning Maps from Density Residential (R-3, 12 dwelling units per acre) to Highway Commercial (HWC).	<b>Neg</b>	01/11/2002
2001122050	Tamar Wherritt/American Tower Corporation Siskiyou County Planning Department Mount Shasta--Siskiyou The applicants request approval for a use permit to construct an unstaffed wireless communications site. American Tower Corporation builds wireless communications towers and leases antenna space to carriers. The proposed project includes constructing a single 150-foot high metal lattice tower that would support 12 panel antennas, and up to five equipment shelters. All the facilities would be within the 10,000 square foot (80 feet x 125 feet) fenced lease area on the site. At build-out, four sets of antennas would be mounted at intervals between 104 feet and 150 feet on the tower. A lightening rod would extend an additional eight feet above the top of the 150-foot tower. No microwave antennas would be installed at the site. The project also includes minor grading to improve the existing access road, and installing underground electrical power lines within the roadbed from Timber Hills Drive up the direct road to the site. No propane tank or generator are proposed. Only one low wattage, manually controlled light would be allowed on each equipment shelter. The facility would not be continuously lighted.	<b>Neg</b>	01/18/2002

Security lights would be equivalent to existing security lighting on the College campus and would be used from dusk until dawn.	<b>NOD</b>	
2001032072	Arastradero Preserve Trails Management Plan Palo Alto, City of Palo Alto--Santa Clara Construction of a 1,177 square foot public visitor center adjacent to the existing Arastradero Preserve parking lot. The structure will provide work space for park rangers, stewards and volunteers, storage space for habitat restoration tools, public restrooms, and a public meeting room for education and orientation of visitors and volunteers. The building has been designed with "green" construction techniques and will involve a minimum of excavation or soil disturbance at the site.	<b>NOD</b>	
2001061068	Cortez Hill Transitional Housing Facility San Diego, City of San Diego--San Diego Centre City Community Plan Amendment, Centre City Planned District Ordinance (PDO) Amendment, Conditional Use Permit (CUP), and Request for Release of Community Development Block Grant (CDBG) Funds in the amount of \$2,700,000 from Fiscal Year 2002, the Twenty-eighth Entitlement Program Year for the acquisition of a 17,790 square foot site occupied by the existing Day's Inn Hotel.	<b>NOD</b>

	The purpose of this acquisition would be to renovate the Day's Inn Hotel and to construct an adjacent 3,000 square foot building to accommodate 47 transitional housing units and associated services. The proposed activity would include nine parking spaces on-site. Amendments to the Community Plan and PDO would allow this use to occur on the proposed site with the approval of a CUP (Lot 1 of Clark Heights, Map 5884).		
2001081163	Orfila Water Well San Diego, City of --San Diego Site Development Permit (SDP) No. 41-0498 and Lease Amendment to drill a 14-inch diameter, 100-foot-deep well located approximately 3/4 mile east of the Orfila Vineyards in the San Pasqual Valley.	<b>NOD</b>	
2001082123	Big Lagoon Park Company Coastal Development Permit (CDP-00-28) Humboldt County Planning Department Trinidad--Humboldt A Coastal Development Permit for the approval of nine (9) new building sites to which existing cabins can be relocated. The relocation is necessary primarily due to the retreat of the bluffs overlooking the Pacific Ocean. The timing of the cabin relocations will be dictated by changes in actual site conditions. To accommodate this uncertainty, the Coastal Development Permit is to be issued for an initial five (5) year term. Modification of the permit term after 5 years may be necessary if the subject cabins have not been moved in that time period. The parcel is approximately 28 acres and is currently developed with 76 cabins, each with its' own nearby sewage disposal system. All of the cabins are served by two wells within the Park Company property. One new cabin is proposed at this time as a replacement for one that was demolished several years ago. A Special Permit is required for Design Review which will be handled as a "blanket permit" since the appearance, size and character of the individual cabins is not expected to change due to their relocation.	<b>NOD</b>	
2001091035	Conditional Use Permit and Precise Development Plan at 1401 Pacific Coast Highway Hermosa Beach, City of Hermosa Beach--Los Angeles Conditional Use Permit and Precise Development Plan for a one-story 3,600 square foot drive-through bank.	<b>NOD</b>	
2001101076	Riverview Park Project Buellton, City of Buellton--Santa Barbara Twenty (20) acre park project.	<b>NOD</b>	
2001101099	Grant Area Aquifer Testing Project Indian Wells Valley Water District --Inyo The Districts proposed Grant Area Aquifer Testing Project consists of the construction of up to three 6" to 10" diameter monitoring wells, zone testing and pump testing of the monitoring well(s) to determine water quality, construction of one 12" to 16" diameter test well, and performance of a pump test (up to three days in duration) to assist in determining aquifer characteristics. Test water will be	<b>NOD</b>

2001128244	Asphalt Concrete Surfacing Caltrans #1 --Mendocino The California Department of Transportation (Caltrans) proposes a major maintenance project on Route 162 in Mendocino County. Work would consist of replacing asphalt concrete (AC) surfacing, adding 30mm AC overlay, dig-outs, placing shoulder backing, and applying traffic striping. Shoulder backing would be placed 0.9 meter on each side of the existing AC. This would require removal of any vegetation within 0.9 meter of the edge of the pavement. All work would be within the existing right-of-way.	<b>NOE</b>	
2001128245	Issuance of Streambed Alteration Agreement #01-0517, Boulder Creek, Shasta County Fish & Game #1 Redding--Shasta The project will install a wet crossing in Boulder Creek, tributary to Churn Creek, Shasta County, to service the expansion of an RV park. The project will have no significant effect on the environment.	<b>NOE</b>	
2001128246	Issuance of Streambed Alteration Agreement #01-0473, Five Cent Gulch, Trinity County Fish & Game #1 --Trinity The project provides for the placement of approximately 25 lineal feet of large natural rock rip rap along the east bank to prevent further high flow erosion. Large rock will be placed and keyed into the east stream bank. No mature trees will be removed. The project will have no significant effect on the environment.	<b>NOE</b>	
2001128247	EX2001-78: Cal-Pines Community Services; Walking Trail Restoration Modoc County --Modoc California Pines Community Services District is seeking approval for the restoration and improvement of an existing walking trail/recreational facility that has fallen into disrepair and has become unuseable. The Cal-Pines community plans to tear out and replace old dilapidated materials; such as numerous railroad ties, and replace them with pressure treated timbers. The plans also call for replacement of existing walkway materials with compacted class II base rock. The trail will incorporate such improvements as rest areas, fishing access points, and an interpretive area for those who come to use the trail for walking, biking, equestrian activities or just to go fishing. The trial rehabilitation project will provide a valuable recreational opportunity for the residents of Cal-Pines, the residents of Modoc County, and for out of the area visitors.	<b>NOE</b>	
2001128248	Rocky Pointe, Simi Valley, CA Ventura County Mountains Recreation and Conservation Authority Simi Valley--Ventura Acquisition of approximately 12.92 acres of undeveloped land.	<b>NOE</b>
